PROFESSIONAL SUMMARY

Fullstack & Backend Systems Engineer with 5+ years of experience designing, architecting, and securing high-availability enterprise web applications, automation frameworks, and distributed services at PT Astra Otoparts Tbk and independent software engineering projects. Proven leadership architecting enterprise monorepos (CSI Eventurer: 218 REST endpoints, 99 SQL Server migrations, 2,780+ automated tests), mission-critical wholesale B2B portals integrated with central SAP ERP, and high-security community systems (SIM-RT: Turborepo, Fastify 5, Capacitor Android, AES-256-GCM envelope encryption, and PostgreSQL RLS). Deep expertise in Node.js, TypeScript, SQL Server, IIS reverse proxies, Android Kotlin, Appium/Puppeteer automation, and DevSecOps / Privileged Access Management (BeyondTrust PAM).

TECHNICAL ARSENAL

Languages:	JavaScript (ES6+), TypeScript, Node.js, PHP, C# (.NET Core), Java, Kotlin, T-SQL, PowerShell
Frontend:	Next.js 16 (App Router), React 19, Tailwind CSS v4, Framer Motion, CSS Modules, Astro, WCAG 2.1
Backend & APIs:	Node.js (Express 5, Fastify 5), ASP.NET Core REST API, JWT Token Rotation, LDAP / AD Auth, SSE
Databases:	Microsoft SQL Server (T-SQL, Idempotent Migrations, Connection Pools), PostgreSQL (RLS), Prisma ORM
Security & Cryptography:	AES-256-GCM Envelope Encryption, HMAC-SHA256 Blind Indexing, Ed25519, BeyondTrust PAM
QA & Automation:	Appium (Mobile Automation), Puppeteer (Headless Browser), TestNG, Playwright, Vitest, Supertest
DevOps & Server:	Windows Server, IIS (ARR Reverse Proxy), PM2, Docker Compose, Turborepo, Netlify, Dynatrace APM

PROFESSIONAL EXPERIENCE

Software & Automation Developer

2021 - Present

PT Astra Otoparts Tbk - Jakarta / Hybrid

- Architected CSI Eventurer (Enterprise Survey & Event Platform) monorepo: Next.js 16, React 19, TypeScript, Node.js Express 5, and MS SQL Server; scaled to 218 RESTful endpoints.
- Authored 99 idempotent database migrations and maintained 2,780+ automated unit & integration tests across 237 test suites with 0 regression escapes.
- Implemented dual corporate LDAP Active Directory & bcrypt authentication with httpOnly rotating JWT cookies and deny-by-default RBAC across 5 enterprise roles.
- Engineered dynamic Form Builder, multi-tier approval workflow, real-time Doorprize system (Roulette/Slot animations with audio sync), and privacy-first zero-PII QR attendance tokens.
- Developed Aspira SATSET Admin Portal (mechanic loyalty ecosystem) utilizing Next.js 16, ASP.NET Core REST APIs, RSA client payload encryption, and video content scoring workflows.
- Maintained 5 Astraotoshop B2B portals (Desktop, Mobile, Admin, SAP ERP sync API, Payment Gateway); authored the 'Zero-Mistake' Staging Migration Architecture preventing production data contamination.
- Built automated mobile testing framework with Appium, Java, Maven, and TestNG, alongside Puppeteer headless automation scripts reducing manual operational QA workload by >70%.

PROFESSIONAL EXPERIENCE (CONTINUED)

IT Support (2nd-Level) & Systems Administrator **2020 - 2021**

PT Astra Otoparts Tbk - Jakarta

- Provided 2nd-level technical support for internal business units; resolved hardware, OS (Windows/Linux), network, and ERP application incidents adhering to strict Ivanti ITSM SLAs.
- Enforced BeyondTrust PAM superuser approval workflows, conducted remote asset audits, and authored operational Standard Operating Procedures (WI).
- Monitored server clusters and production service health utilizing Dynatrace APM and OS log analysis to preempt system downtime.

DevOps Intern **2019 - 2020**

Pasaryoo App - Pangkalpinang

- Monitored SaaS backend services and microservice uptimes to guarantee production stability.
- Investigated production incidents through server log analysis and escalated actionable findings to senior engineering teams.
- Assisted engineering teams with CI/CD staging environments and deployment runbook documentation.

KEY ARCHITECTURAL & ENGINEERING PROJECTS

SIM-RT Enterprise Monorepo v3.0 *Turborepo, Fastify 5, React 19, CapacitorJS, PostgreSQL RLS*

- Production-grade neighborhood governance system. Fastify 5 REST & SSE backend, React 19 admin, CapacitorJS Android app, AES-256-GCM envelope encryption, blind indexing, and anti-tamper hash-chained ledger.

Dishub Trayek GIS Transit App *Android, Kotlin, GeoJSON, Spatial Heuristics*

- Native Android GIS public transit route tracking application for Department of Transportation (Dishub). Features GeoJSON spatial mapping, transit stop heuristic mapping, and offline-capable search.

Wedding SaaS Multi-Tenant Platform *Next.js, Prisma ORM, PostgreSQL, Docker, Playwright, Vitest*

- Multi-tenant invitation SaaS platform featuring dynamic guest management, RSVP workflows, digital gifting, Prisma ORM schema migrations, Playwright E2E tests, and Docker orchestration.

PortalMasjid Governance Platform *Next.js, TypeScript, Prisma ORM, Tailwind CSS*

- Mosque community governance and financial transparency portal featuring real-time donation tracking, financial report generation, and committee access management.

EDUCATION

Bachelor of Computer Science (S1 Informatika) **2014 - 2020**

Telkom University, Bandung

Final Project: Weather Data Acquisition & WRF Simulation Revalidation (IoT, Sensors & Web Integration).
Relevant Coursework: Software Engineering, Web Programming, Distributed Systems, IoT Systems.

CERTIFICATIONS & COMPLIANCE

- Fullstack Node.js Bootcamp - Certificate Code ID
- BeyondTrust Privileged Access Management (PAM) Operational Compliance - PT Astra Otoparts Tbk
